EDUCATION

Rutgers University, New Brunswick, NJ

May 2027

Bachelor of Science in Computer Science

Saddle Brook High School, Saddle Brook, NJ

June 2023

High School Diploma

WORK EXPERIENCE

Web Developer Intern | AccuSpec

May 2026 – July 2026

- Designed and developed a responsive company website using **React.js**, **JavaScript**, **HTML5**, and **CSS3**, creating a modern user experience across desktop and mobile devices while improving page performance by **10% through image optimization and responsive design techniques**.
- Collaborated with interns and colleagues through an **Agile development process**, participating in regular stand-up meetings, sprint planning sessions, and requirement discussions to deliver project milestones.
- Implemented on-page **SEO** improvements, including metadata optimization, semantic HTML structure, and image alt-text enhancements to improve website search visibility and accessibility.
- Deployed and maintained the production website using Netlify, managed source code with **Git/GitHub**, and utilized **CI/CD** workflows for streamlined application updates and deployments.

PERSONAL PROJECTS

AI Resume Analyzer | MERN Stack

MongoDB • Express.js • React.js • Node.js • Firebase Authentication • AI Integration

- Developed a full-stack AI resume analyzer using the MERN Stack, allowing users to upload resumes and job descriptions to generate ATS match scores and improvement recommendations.
- Integrated AI-powered analysis to identify keyword gaps, formatting issues, and provide personalized resume optimization feedback.
- Built **RESTful APIs** using **Node.js** and **Express.js**, implemented **Firebase Authentication**, and stored user analysis history with **MongoDB**.
- Designed a responsive **React.js** interface with reusable components for resume uploads, feedback visualization, and user dashboard functionality.

Personal Portfolio Website

- Developed a responsive portfolio website using **HTML**, **CSS**, and **JavaScript** to showcase technical projects, skills, and professional experience.
- Built a **Flask**-based contact form with server-side validation and routing to securely handle user submissions.
- Deployed and maintained the application using **GitHub**, practicing version control and full-stack development workflows.

SKILLS

Languages: Java, JavaScript, Python, SQL, HTML5, CSS3

Frameworks/Libraries: React.js, Node.js, Express.js, Flask, Firebase, Pandas, NumPy

Databases: MongoDB

Tools: Git, GitHub, VS Code, Postman, Netlify, Figma

Relevant Coursework: Data Structures & Algorithms, Computer Architecture, Data Management for Data Science, Software Methodology, Web Development, Discrete Structures

CERTIFICATIONS

Java Programming: Solving Problems with Software – **Duke University**
